

June 2016 – Resources for World Peace Diet Circle

Compiled by Dr. Will Tuttle,
For World Peace Diet Circle Members

“In our society, growing food yourself has become the most radical of acts. It is truly the only effective protest, one that can—and will—overturn the corporate powers that be. By the process of directly working in harmony with nature, we do the one thing most essential to change the world—we change ourselves.”

~ Jules Dervaes, Urban Homestead in Pasadena, growing 6,000 pounds of produce annually on 1/10th of an acre

“The great enemy of truth is very often not the lie -- deliberate, contrived, and dishonest -- but the myth -- persistent, persuasive, and unrealistic. Too often we hold fast to the clichés of our forebears. We subject all facts to a prefabricated set of interpretations. We enjoy the comfort of opinion without the discomfort of thought.”

~ John F. Kennedy Commencement Address at Yale University, June 11, 1962
