Compiled by Dr. Will Tuttle,
For World Peace Diet Circle Members

“Similar conflicts of interest and biases exist in virtually every field of medicine, particularly those that rely heavily on drugs or devices. It is simply no longer possible to believe much of the clinical research that is published or to rely on the judgment of trusted physicians or authoritative medical guidelines.” - Marcia Angell, MD, former editor of the New England Journal of Medicine (for over two decades) and author of *The Truth About the Drug Companies: How They Deceive Us and What to Do About It*.

“The problem is we have a healthcare industry that doesn't care about food and a food care industry that doesn't care about health.” — Wendell Berry
