EVERY DAY in this world people eat 21 billion pounds of food

EVERY DAY in this world the animals we raise for food are fed 135 billion pounds of grain!!!

EVERY DAY in this world humans use 5.2 billion gallons of water.

EVERY DAY in this world, the animals we raise for food require 42 billion gallons of water!!!

EVERY DAY in this world, 80,000 acres of rain forest are destroyed primarily due to livestock production!!!

If we would raise crops for food rather than for feed then we could help stop Famine, Drought and Desertification of our precious rainforests!!!

Save the Rainforests!

What would you rather have?

This?

Or this?
