

September 2025 – Resources for World Peace Diet Circle

Compiled by Dr. Will Tuttle
For World Peace Diet Circle Members

“I know of no more encouraging fact than the unquestionable ability of man to elevate his life by a conscious effort.”
– Henry David Thoreau

“Rational argument can be conducted with some prospect of success only so long as the emotionality of a given situation does not exceed a certain critical degree. If the affective temperature rises above this level, the possibility of reason having any effect ceases, and its place is taken by slogans and chimerical wish fantasies.” – Carl Jung

There is more diversity of thought on the political Right than on the political Left.

Although they pride themselves on open-mindedness, liberal thinking actually coalesces around a very narrow set of opinion, whereas the Right diverges widely.
